

Needing to control costs?

Electrical South can help with reliable industrial electronic repairs.

Plastics industries prefer Electrical South.

Electrical South™

by Schneider Electric

What makes Electrical South the leader?

Decades of repair experience means more solutions for you.

Electrical South has continually set the standard in the industrial electronic repairs business. A vast inventory of quality stock parts and reconditioned inventory, a 70,000-square-foot facility dedicated to repair, over 70 highly experienced technicians and nationwide field sales personnel easily qualify Electrical South as a leading provider of industrial electronic repairs. Our technicians are backed by a full-time engineering staff, a large technical documentation library and unparalleled test equipment and IT support.

With our repairs, you'll experience:

- Quality, consistency and reliability
- Turn-around in days
- No-nonsense, comprehensive warranty
- One-stop-shop for the repair of industrial electronics, servomotors and circuit breakers
- Access to online tools with up-to-date status of open orders, service reports and a 3-year repair history

How Electrical South helps you reduce cost:

- Repairs are typically half the cost of replacements
- Avoids the hidden costs of unsolicited OEM upgrades
- Lower transaction costs with one provider
- Keep vintage equipment operating reliably for longer periods
