

Square D® Services

If your power equipment isn't performing, your plant isn't performing. Square D Services from Schneider Electric can help. Our experienced factory-trained technicians and engineers know how to get the most out of your power equipment.

By using proven technology like Masterpact® replacement circuit breakers, our team can revitalize aging equipment in record time, no matter the make and model.

From equipment start-up to problem analysis to corrective action and custom solutions, Square D Services will turn your equipment into your most reliable employee.

Emergency Services and Disaster Recovery

1-888-778-2733 ■ 24 hours/day - 7 days/week

What Can Square D Services Do for You?

Solutions that address NFPA 70E Standards and promote workplace safety

Services for power distribution, automation and control equipment

Solutions designed to reduce downtime, improve reliability, extend equipment life

Asset management

Engineering talent for all major OEM brands

Nationwide services network

Engineering Services

- Arc Flash Analysis
- Power Consulting
- Project Engineering/Custom Designs
- Electrical Systems Analysis
- Power Quality Correction
- Circuit Loading Study
- Harmonics Assessment
- Remote Power Management
- Energy Management Assessment
- Ungrounded to High Resistance Conversion
- Project Management

Maintenance and Testing Services

- Relay and Metering Calibration
- On-site Preventive Maintenance
- Infrared Testing
- Monitoring Systems
- Service Agreements
- Spare Parts

Square D® Services

Manufactured Products

- Station Breakers

Legacy Equipment*

- Power-Zone (PZ 1, 2, 3)/Low Voltage Switchgear
- BOLT-LOC Switches
- Drives/Soft Starts

New Installation Services

- Start-Up Services
- Installation Coordination
- On-site Training
- Turnkey Capabilities
- Project Management
- Site Measurement Services
- Infrared Viewing Window

MV/LV Retrofit and Upgrade Services

- Direct Replacement Circuit Breakers
- Reconditioning Program for Circuit Breakers
- Retrofill Solutions
- Circuit Breaker Conversion to Vacuum Starter
- Network Protectors
- Trip Unit Retrofits
- Relay and Metering Retrofits
- Remote Racking Systems
- Switchgear Expansions and Upgrades
- Low Voltage MCC Replacements
